Course: Beginning Drawing

Materials: Students will be provided with basic art supplies; however, students may occasionally supply materials for independent projects.

Goals/Objectives: As always students will be working to achieve competence in the skills in art set forth by the state of Missouri. Students will be learning about art career techniques that utilize drawing, working on different drawing techniques as well as becoming familiar with various drawing media.

Deadlines: Work will be expected on my desk on the day it is due; however, unlike some subjects it can be very difficult to set a due date on art projects. As we work day to day on projects our schedule will change accordingly. Although I don't often set an exact date for a project to be due, I expect consistent and rigorous work ethic for projects. Bell work will be graded at the end of the week. The school re-assessment policy will be followed.

Assignments: Students will complete a variety of activities from studio "hands-on" projects, viewing presentations on art related themes, reading, writing, or even research projects.

Evaluation: Students will be evaluated in many ways including but not limited to: work ethic, appropriate use of materials, creativity, craftsmanship, ability to follow directions, as well as specific art skills. Skills assessed will tie directly to the grade level expectations created by the state department of education. These grading criteria are designed to give all students equal opportunity to achieve regardless of talent. Projects will be graded with the use of a scoring guide. Typically students will be given a scoring guide through Google Classroom when projects are assigned as to ensure they have the best opportunity possible to be successful.

In close, I am looking forward to this year. If you have any questions, comments, or concerns DO NOT HESITATE TO CALL OR EMAIL! I am always happy to talk to parents.
