

Entrepreneurship Syllabus

Jeff. Mace
Extension 234
Email: jmace@orrick.k12.mo.us

Course: Entrepreneurship

Materials: Students will use computers/iPads for their daily projects as well as occasionally using pen and paper.

Goals/Objectives: As always students will be working to achieve competence in the skills set forth by the state of Missouri. Students will be gaining skill and competence in business as well as design. This class will run the school store and coffee shop.

Deadlines: Work will be expected on my desk on the day it is due. As we work day to day on projects our schedule will change accordingly. I expect consistent and rigorous work ethic for projects. School re-assessment policy will be followed.

Assignments: Students will complete a variety of activities from "hands-on" projects, viewing presentations on business related themes, reading, writing, or even research projects. Students will create products to be sold for the school store as well as custom projects as needed.

Evaluation: Students will be evaluated in many ways including but not limited to: work ethic, appropriate use of technology, creativity, ability to follow directions, as well as specific business skills. Skills assessed will tie directly to the standards created by the state department of education. These grading criteria are designed to give all students equal opportunity to achieve regardless of talent. Most projects will be graded with the use of a scoring guide. Scoring guides typically will be posted in Google Classroom when projects are assigned as to ensure that students have the best opportunity possible to be successful.

In close, I am looking forward to this year. If you have any questions, comments, or concerns DO NOT HESITATE TO CALL OR EMAIL! I am always happy to talk to parents.
